PROFILE

An optimistic, tech savvy, entry level web developer currently completing a full stack web development coding boot camp. Excel in the fundamental skills needed to succeed as a web developer including front-end and back-end technologies such as JavaScript, REST APIs, MongoDB, React and creating full-stack applications through group projects. Detailed professional with strong technical and communication skills who thrives in teamwork environments.

EDUCATION

University of Minnesota, *Minneapolis , MN*   *December 2021 - June 2022*
Full Stack Web Development Certificate - Coding Boot Camp

TECHNICAL SKILLS

- Ability to formulate the entire development cycle of complex projects in both independent and collaborative settings with tools like HTML, CSS and JavaScript.
- Generate dynamic content and implement user authentication schemes by incorporating different types of databases such as MySQL and MongoDB.
- Create full-stack, single-page web applications with RESTful routes and AJAX methods.
- Familiarity in Test Driven Development (TDD), Object-Oriented programming (OOP), Model-View-Controller (MVC), Sequelize, React, GraphQL, Third-Party APIs, Progressive Web Application(PWA), Object-Document Mapper (ODM), Express.js, and Node.js.

CODING BOOTCAMP PROJECTS

COVID-19 Testing Locations (Deployed on GitHub)   *February 2022*

- This project was created to guide anyone with COVID-19 symptoms to find COVID-19 testing locations in the city specified by the user. The user will be able to use the input form on the application to search for COVID-19 testing locations in the specified city. The application will then display to the user the locations found along with their facilities addresses. The search result will also present the user with a map to give the user a visual of where the locations are situated.
- Implemented a variety of tools such as HTML, CSS, JavaScript, UiKit framework and Third-Party APIs.
- As part of a randomized team, I initiated group stand up meetings, set up systematic deadlines for the successful completion of the project, and mediated conflicts between team members.

Festival of Nations (Deployed on GitHub)   *April 2022*

- This project was inspired by Protolabs annual event Diversity, Equity and Inclusion (DEI) event called Festival of Nations. Our group created a secure website so that their employees can create an account and sign in to a secure website where they can create a post showing which country they would like to represent at the festival. Technologies implemented during this project include CSS, Handlebars, Bcrypt,

Sequelize, Dotenv, Express.js, JavaScript, mySQL, JawsDB, withAuth, Nodemailer, Send Grid and was deployed through Heroku.
- As part of a randomized team, initiated group stand up meetings via Zoom. In charge of the group Kanban board and assigned some tasks to group members. Participated in pair programming to help resolve major bug issues that arose during development.

Recent Projects (Deployed on GitHub)

Let's Talk Tech Blog *April 2022*
- This app was created to have a CMS-style blog site similar to a Wordpress site, where developers can publish their blog posts and comment on other developers' posts as well. Technologies implemented include CSS, Handlebars, Bcrypt, Sequelize, Dotenv, Express.js, Express Sessions, JavaScript, mySQL, JawsDB, withAuth, and was deployed through Heroku.

README Generator *March 2022*
- The goal of this project was to create a README generator to help developers create a professional README for a new project. Technologies implemented include JavaScript, ES6, Node.js and Inquirer.js.

PROFESSIONAL EXPERIENCE

Target, *Murrieta, CA* *July 2020 - Present*
Guest Advocate
- Improve guest experience by helping guests pay out efficiently and assisting them with their returns.
- Mentor and train new team members as cashiers and guest service specialists.
- Supported the human resources department during Q4 of 2020 by giving store tours and guiding new team members through the onboarding process.

AcuVision Family Optometry, *Whittier, CA* *October 2016 - July 2020*
Optician
- Deployed orders for patients to their respective insurances, pre-testing, and scheduling appointments.
- Reviewed deployed orders by other opticians to ensure orders in the day were processed accurately.
- Mentored and trained newly hired opticians and created an optician training manual.

International Christian Churches, *Los Angeles, CA and Mexico City, Mexico* *May 2011 - August 2016*
Women's Campus Leader
- Mentored and trained women within the ministry. Educated women through leading Bible studies and often spoke publicly during women's services.
- Led and oversaw over 100 women over the span of 5 years in two countries.
- Served as a member of a 12-person mission team to Mexico City where we initiated a new church.

ADDITIONAL EDUCATION

Udemy
The Web Developer Bootcamp 2022 *Currently Enrolled*
JavaScript - The Complete Guide 2022 (Beginner + Advanced) *Currently Enrolled*
NodeJS - The Complete Guide (MVC, REST APIs, GraphQL, Deno) *Currently Enrolled*

International College of Christian Ministry, Los Angeles, CA *July 2016*
Bachelor of Arts, Ministry
